DREAMSEEDSCAMP

“For the next global innovators”

# DREAM SEEDS CAMP 2022 Summer Camp

English STEAM summer camp for future global innovators  
International educations for students to develop English,  
tech and presentation skills

## Learn STEAM while having fun!

STEAM is the key for the future global leaders and “change makers” in the era of AI. We provide the opportunity to “learn while playing,” to keep kids engaged at all times!

## Various Technologies

Programming, Robotics, 3D Printer, VR, Digital Art, Digital Music, Computer Graphics, Video/Animation/Movie making, Game Development  
Multiple Technologies In 1 course

## Presentation Skills

We offer opportunities kids to brush up their digital presentation skills everyday! They learn how to reflect and organize their thought and express those effectively to the world. This experience has an Immeasurable Impact on kids.

## Digital Arts Fluency

Attractive presentations are the most engaging and persuasive so learning how to make them at a young age is very important. The key is convey the other's interests through graphic designs, music, and video production and editing skills. These skills will be learned at our camp as well.
