CURRICULUM HIGHLIGHTS

PRESENTATION SKILLS

Gravity

The ability to coherently express ideas is a fundamental skill. In our camps we create an encouraging environment for our students to build **confidence** through sharing projects and discussing newly acquired knowledge.

DEBATES

Debating strengthens **public speaking**, **critical thinking**, and **teamwork**—all while making learning fun. Students will learn to express their ideas clearly, build strong arguments, and think on their feet. Debating boosts confidence and prepares them for success in school and beyond.

DIGITAL PORTFOLIO

In today's fast-changing world, a digital portfolio is more than just a collection of work—it's a powerful tool for showcasing creativity, critical thinking, and problem-solving skills. We guide kids in building their own digital portfolios, helping them document projects, achievements, and ideas in a way that stands out.

Get a head start for school and future opportunities, sets yourself apart in the tech-driven world.
